

MAKE MORE

CUSTOMISE MORE AND PROFIT MORE WITH A UV PRINTER THAT DOES IT ALL

Customise signs, merchandise, packaging, displays, and so many more applications with an easy-to-use, multi-functional UV flatbed printer that transforms your business output overnight with an almost unlimited range of custom graphics possibilities.

Produce promotional giveaways, giftware, and branded merchandise—add Gloss ink effects for high-end custom finishes.

Compatible with a world of flexible media, bring your unique packaging vision to life with realistic proofs and prototypes.

Customise panels, sheets, canvas, display boards and so much more with the ease, speed, and simplicity of direct-to-object printing.

Choose an LEC2 S-Series Printer That Fits Your Business

The LEC2 S-Series offers machine options that reflect the products and media choices you want to print on. We provide two different bed sizes including the 640 S with a 1696mm(W) bed size that prints on full-boards and the 330 S with a 820mm(W) x 2085mm(D) bed size. We also supply an optional belt-driven model that solves space issues and prints roll-to-roll as well as rigid.

Highlights

- Extraordinary application versatility—print on items up-to 200mm in height and up-to 100kg in weight.
- An intuitive distance print mode delivers brilliant print consistency on objects that are flat, irregular, or curved.
- Machine features include low-temperature adjustable UV lamps, advanced vacuum options, emergency stop controls, and a separate control tower with easy-operation touch panel controls.
- Get exceptional quality UV print results with cost-effective ECO-UV (EUV5) ink in dual CMYK or CMYK with Orange, Red, White, Gloss and Primer configurations.
- True Rich Color mode combines with new Orange and Red ink options to broaden your colour gamut and enable you to target specific brand colours.
- Includes VersaWorks 6 software—packed with advanced colour options and output features, such as automatically generating White, Gloss and Primer layers directly in the RIP.
