DISCOVER THE POSSIBILITIES

ROLAND DG 3D SOLUTIONS

ENGRAVERS

EGX-30A Desktop Engraving Machine

The Roland EGX-30A desktop rotary engraver offers a host of revenue possibilities in an affordable package, producing everything from gifts and awards to signs and badges. This powerful engraving solution comes complete with bundled software, a vacuum hose and a brass adaptor for scribing, boosting production and profits while running quietly in any office setting.

EGX-30A

DE-3

DE-3 Desktop Engraving Machine

For over 30 years Roland has lead innovation in rotary engraving technology and continues to break new ground with the DE-3 DGSHAPE Engraver. Featuring laser-pointing technology, ethernet connectivity, automatic depth regulation and other intelligent enhancements, the DE3 is the smartest, most intuitive rotary engraver on the market.

ROTO-350 Cylindrical Engraving Attachment

The ROTO-350 is a custom designed attachment for the Roland EGX-350, to enable cylindrical engraving and scribing on a range of materials such as aluminium, stainless steel, pewter, crystal and timber. Its intuitive bolt on design allows for simple installation, and has the ability to switch between cylindrical and flat engraving with ease. Expand your engraving capabilities to offer your customers mugs, cups, glassware, canisters and much more.

ROTO350

ENGRAVERS

LV-290 and LV-180

Laser Engravers

You don't need to be a machine expert to cut-out, engrave or mark on hundreds of different materials. Make amazing things at the touch-of-a-button with the LV-290 or LV-180 laser engraving machines — cut wood, leather and fabric, and mark on metal, glass and other items with laser precision. Available in two sizes to fit your office or workshop, LV laser engravers offer a fully-enclosed operation with non-contact CO2 laser and Class 1 safety compliance.

MILLING MACHINES

MDX-50

MDX-50

Benchtop Milling Machine

The MODELA MDX-50 combines precise, automated milling and unmatched ease-of-use. An ideal solution for short-runs and prototypes, the MDX-50 reduces operation time and simplifies production so users of all abilities can mill functional parts with incredible quality on a wide range of materials.

monoFab SRM-20

Compact Milling Machine

As a small milling machine, the SRM-20 offers compact size and powerful functionality at an affordable price. Production of realistic parts and prototypes is made simple and convenient with a device that fits into any office, home, or classroom environment. For users looking for advanced milling capabilities without the need for expert operating skills, the SRM-20 is the easiest and most precise CNC mill in its class.

SRM-20

IMPACT PRINTER

METAZA MPX-95

Photo Impact Printer

Photo impact printer technology makes gift personalisation and direct part marking of tools and medical instruments a clean, quiet and hassle-free experience. Affordable and effortlessly easy-to-operate, the MPX-95 provides stunning results on metal materials that include titanium, platinum, silver, copper and gold. A durable diamond-tipped stylus strikes the material with high speed and precision to reproduce the most delicate gradations and finest fonts. The MPX-95 is the perfect solution for gift personalisation, industrial part marking, and ensuring UDI compliant medical instruments.

MPX-95

LASER DECORATORS

LD-300

Laser Decorator

The LD-300 Laser Decorator goes beyond foil decoration on soft plastics to include larger three-dimensional items and direct imprinting on natural leather. The unique design of the LD-300 allows unique personalisation of small or large objects without sacrificing quality. The working area of LD-300 is approximately 305mm x 230mm and can accommodate objects up to 50mm in thickness. The bed can be removed for even larger items up to 200mm, such as handbags and product packaging. The LD-300 can produce stunning graphics and crisp text using bundled METAZASoftware.

LD-300

LD-80

LD-80

Laser Foil Decorator

The DGSHAPE LD-80 lets you enter personalised text or upload a graphic, and with precision and ease, unique designs are transferred onto polycarbonate, acrylic, thermoplastic, leather & synthetics, coated papers and more. The LD-80 is easy-to-use and safe-to-operate, using a Class 1 laser to heat transfer metallised foils onto gifts, promotional items, merchandise, cosmetics, stationery and more. With the LD-80, you'll take objects from average to amazing in minutes.

SPECIFICATIONS

EGX-30A		DE-3
