DISCOVER THE POSSIBILITIES

ROLAND DG 3D SOLUTIONS

ENGRAVERS

EGX-30A

Desktop Engraving Machine

The Roland EGX-30A desktop rotary engraver offers a host of revenue possibilities in an affordable package, producing everything from gifts and awards to signs and badges. This powerful engraving solution comes complete with bundled software, a vacuum hose and a brass adaptor for scribing, boosting production and profits while running quietly in any office setting.

EGX-30A

EGX-350

EGX-350

Desktop Engraving Machine

The EGX-350 rotary engraver is a true price to performance breakthrough in desktop engraving, opening new doors to profits for gift engravers, trophy shops, jewellery retailers and more by combining versatility with quick and easy automated production. With the EGX-350, you can create custom signs, personalised gifts, awards and promotional items at a fraction of the cost of outsourcing.

ROTO-350

Cylindrical Engraving Attachment

The ROTO-350 is a custom designed attachment for the Roland EGX-350, to enable cylindrical engraving and scribing on a range of materials such as aluminium, stainless steel, pewter, crystal and timber. Its intuitive bolt on design allows for simple installation, and has the ability to switch between cylindrical and flat engraving with ease. Expand your engraving capabilities to offer your customers mugs, cups, glassware, canisters and much more.

ROTO350

MILLING MACHINES

MDX-40A

Benchtop Milling Machine

An intuitive and easy-to-use Subtractive Rapid Prototyping (SRP) device, the small footprint MDX-40A fits into any workshop, office or classroom and allows both novice and advanced users to create precision 3D models. Built for designers, engineers and students who work in fast-paced environments, the speed, versatility and convenience of the MDX-40A put you in complete control.

MDX-40A

MDX-50

MDX-50

Benchtop Milling Machine

The MODELA MDX-50 combines precise, automated milling and unmatched ease-of-use. An ideal solution for short-runs and prototypes, the MDX-50 reduces operation time and simplifies production so users of all abilities can mill functional parts with incredible quality on a wide range of materials.

MDX-540 and MDX-540S

Benchtop Milling Machines

MDX-540 3D milling machines are some of the fastest, most accurate and accessible devices on the market, ideal for producing everything from functional and snap-fit parts and prototypes to light metal moulds and custom jewellery. Available in standard and enhanced models, MDX-540 benchtop milling machines offer advanced CNC milling at an affordable price.

MDX-540

MILLING MACHINES

monoFab SRM-20 Compact Milling Machine

As a small milling machine, the SRM-20 offers compact size and powerful functionality at an affordable price. Production of realistic parts and prototypes is made simple and convenient with a device that fits into any office, home, or classroom environment. For users looking for advanced milling capabilities without the need for expert operating skills, the SRM-20 is the easiest and most precise CNC mill in its class.

SRM-20

IMPACT PRINTER

METAZA MPX-95 Photo Impact Printer

Photo impact printer technology makes gift personalisation and direct part marking of tools and medical instruments a clean, quiet and hassle-free experience. Affordable and effortlessly easy-to-operate, the MPX-95 provides stunning results on metal materials that include titanium, platinum, silver, copper and gold. A durable diamond-tipped stylus strikes the material with high speed and precision to reproduce the most delicate gradations and finest fonts. The MPX-95 is the perfect solution for gift personalisation, industrial part marking, and ensuring UDI compliant medical instruments.

MPX-95

LASER FOIL DECORATOR

LD-80 Laser Foil Decorator

The DGSHAPE LD-80 lets you enter personalised text or upload a graphic, and with precision and ease, unique designs are transferred onto polycarbonate, acrylic, thermoplastic, leather & synthetics, coated papers and more. The LD-80 is easy-to-use and safe-to-operate, using a Class 1 laser to heat transfer metallised foils onto gifts, promotional items, merchandise, cosmetics, stationery and more. With the LD-80, you'll take objects from average to amazing in minutes.
